

\$35

\$45

Same Arrangement. Different Price?

Yes, it's true. When you order flowers from an out-of-town toll-free company or online you'll get the same arrangement as you would if you ordered directly from your local florist — the only difference is you'll either pay more or receive a smaller arrangement. Either way you get the short end of the stem (so to say).

Order directly from your local florist and get the most of your floral gift.
